SECTION F	MARKET INFORMATION AND OPEN MARKET VALUE
------------------	---

For the purposes of a general valuation, a municipality must determine a date that may not be more than 12 months before the start of the financial year in which the valuation roll is to be first implemented. The general valuation must reflect the market value of properties determined in accordance with; (a) market conditions which applied as at the date of valuation; and (b) any other applicable provisions of this Act.

DATE OF VALUATION AS DETERMINED UNDER SECTION 31	01-Jul-18
---	------------------

Subject to any other applicable provisions of the Act, the market value of a property is the amount the property would have realised if sold on the date of valuation in the open market by a willing seller to a willing buyer. Should it be the opinion of the objector that the value of the property as reflected in the valuation roll is incorrect. The objector must provide ample reasons, by means of comparable sales, that proves the opposite. The comparable sale must be a reasonable replacement of the property objected to. It must be reasonable similar to the objected property in terms of, amongst others, extent, shape, land use and other features. It must be confirmed that the sale used for comparison, must conform to the definition of Open Market Value.

It is important to note, that the objection must be in terms of the information presented or omitted from the valuation roll, and it should not be an objection against levying of Rates and Taxes
